Uwe Schmitt, Project Manager DC/PAV
Uwe.Schmitt3@bosch.de

To whom it may concern,

grow platform GmbH is the legal entity of grow and a 100% subsidiary of the Bosch corporation. All our grow start-ups are part of this entity and are supported by the platform team.

As a basic rules company which relates to our processes, structure and working conditions, we are able to find our own way of establishing a start-up environment that perfectly serves you as corporate entrepreneurs. Nevertheless, for each start-up, access to all Bosch resources and competencies is provided.

In the period between April and August 2018, Tempomacher Consulting UG conducted an extensive competition analysis, including a technology scouting, on behalf of grow platform GmbH. In a final step, the findings were presented and explicated personally at the client's facilities.

We thank the project leaders Mr. Andreas Bechler and Mr. Stefan Rauch as well as the rest of the team around Mr. Marko Schwipps, Mr. Mario Köhler and Mr. Simon Rösler for the consistently most pleasant, transparent and successful collaboration. The outcomes of the project have provided us with deep insights into the global technology market and a valuable contribution for our start-up.

Highly satisfied with the performance of Tempomacher Consulting UG, we can gladly recommend them and wish them all the best for the future.

Sincerely,

grow platform GmbH
Uwe Schmitt
